**EASY INSTALLATION**

**LONG LIFE SPAN**

**NO BULBS CHANGES,  
OVER 22 YEARS LED LIFE  
SPAN**

This multi-purpose solar light has 84 super bright LED light bulbs and it is designed for wall or surface mounting. This fixture and its solar panel both have an adjustable support bracket that allows vertical and horizontal tilt. The solar panel is supplied with approximately 5 Mt of cord allowing it to be positioned where it can capture most sunshine such as outside on a wall or on a roof top.. Perfect for use where electricity is unavailable such as in or around barns, out-buildings, garden light, sign light , advertising light, sheds, cabins, stalls, shelters etc. You could even use this product when there are power outages, or in emergency situations such as after a hurricane, or in an RV or tent when camping.

Use for animal and livestock areas to assist feeding and maintenance. The floodlight fixture body incorporates a photocell (light sensor), a 3-way mode switch offering constant on, constant off or auto

mode (on at dusk automatically) and also, very uniquely, a dimmer switch. This allows the light intensity to be adjusted accordingly.

ATLANTS LED's typically last over 22 years so there are no bulb changes. The specially designed lens allows a good, even light dispersion. Color of light output is white (other upon request) System comprises of a compact floodlight design with super efficient solar panel. On/off/auto mode switch on fixture body.

Adjustable dimmer switch.  
84 super bright LED's  
12000mAh rechargeable batteries  
Built-in photocell for automatic night time operation.
