

ATLANTS

3 power ways:
Solar + battery + electricity
(optional)

Triple efficiency:
Sonic+strobe light+ultrasonic

92 cm high (with stake)

Ultramax 9000

Pest birds repeller with TRIPLE repelling system: sonic + strobe light + ultrasonic
Powered by solar, battery and electric AC*

The most natural, humane, effective, environmental-friendly way to deter pest birds from your property!

Ultramax 9000 can be powered by batteries, solar or electricity for mobility usage. Non-location limit feature makes the bird repelling program an easy, maintenance-free and economical one. It applies powerful frightening techniques for airfield bird control to make the device a very effective bird scaring machine. The combination of predatory bird calls and bird cries plus very strong flashing strobes and ultrasonic sound, in fixed and sweeping mode, makes the device to repel pest birds, unwanted wild animals and other pest animals effectively and humanely.

Bio-acoustic system broadcasts natural alarm and distress calls with predatory bird calls causing audio alert to those pest birds. The visual impact of strong flashing strobes will hinder pest birds and animals from approaching to the protected area as well as ultrasound system increases efficiency at the highest level

Combining the audio and visual impact, Ultramax9000 will keep pest birds and wild animals away from the protected **area effectively, humanely and economically**. The built-in buttons and switches on control panel make possible to set up the device to adapt the various circumstances.

A built-in power plug allows electricity operation by adaptor once required. It can be mounted on the wall, buildings, free standing or on stake (included)

APPLICATIONS: Farms, Lawns, Gardens, Yards, Pools, Orchards, Vineyards, Barns, Fish Ponds, Yachts, Camping, Outdoor Activities, Factories, Warehouses, Any Other Property Security

BIRDS AND WILD ANIMALS: Sparrows, Pigeons, Blackbirds, Crows, Starlings, Other Types of Birds. Pest Animals, such as monkeys, squirrels, hares, boars, deer, rats, bats... etc.

SPECIFICATIONS:

Triple repelling system, the most efficient way

- * **SONIC WAVES:** 17 predatory calls plus distressed bird calls and 9 distress sounds
- * **ULTRASONIC:** 4 fixed frequencies and one sweeping ultrasonic frequency
- * **STROBE LIGHT:** Super Bright LED x 6

The 3 repelling ways can be settled by user
 The device is weatherproof. Material housing: ABS
 Power Supply: Solar Ni-MH rechargeable batteries (4) AA 1000mAh (included)
 Optional Power Supply (electric adaptor): 100 – 240 VAC, 50/60 cycle
 PIR Mode: Fan shaped area of 145°, distance of up to 25 meters
 Solar panel: Size 80x120mm. Voltage: 7.5V. Current: 160mA
 Size unit: 28*16*11 Cm—92x16x11 with stake. Weight of unit: 1.3 Kg
 Packing: 10pcs/master carton
 Master carton size/weight: 54 x 45 x 40 Cm G.W.: 14 KGS
 Ref.ATL-ULT9000

PESTICIDE FREE, CHEMICAL FREE, SEVERAL POWER SOURCES FOR THE MAXIMUM VERSATILITY AND FREEDOM OF USE, NO MAINTENANCE ONE SINGLE INVESTMENT FOR MANY YEARS OF USE

* AC charger optional
