

# SOLAR WIRELESS LIGHTING KITS

Charge solar led lights by solar panel and enjoy them where needed  
Once charged, no cables needed. Efficient smart chip:>8 Hours full Brightness

LFP Lithium Battery >6 years life span . Better than any solar lighting kit using lead acid batteries  
Super bright LED (No Heat, almost no luminous decay, high light efficiency)  
Efficient smart chip:>8 Hours full brightness—Direct solar charging by solar panel  
Power factor nearly 100%; constant current output  
Full overcharge and over discharge protection  
No cables . Wireless led lights with switch, you can hang them on where needed, freely

## TECHNICAL FEATURES FREEDOM15-01 LIGHTING KIT

Solar Panel: 1.5W 6V/250mA crystalline panel 25 years life span  
Charging cable: 3M  
Battery 3.7V 2000mAH Lithium Battery long life span  
Controller :Full overcharge and over discharge protection  
LED: 1pc Super bright LED rechargeable lamp 130Lm  
Charging time 6-8 hours by solar panel  
Working time 7-8 hours Full Brightness  
Master carton 100 kits/master carton  
Master carton volume 0.32 m3  
Gross weight kit 500g  
G. weight master carton 50Kg

Solar wireless led lamps

## TECHNICAL FEATURES FREEDOM15-04 LIGHTING KIT

Solar Panel: 5W 6V/833mA crystalline panel 25 years life span  
Charging cable: 4 pieces x 3M  
Battery; 4pieces 3.7V 2000mAH Lithium Battery long life span  
Controller :4 pieces Full overcharge and over discharge protection  
LED: 4pc Super bright LED rechargeable lamp 130Lm/each  
Charging time 6-8 hours by solar panel  
Working time 7-8 hours Full Brightness  
Master carton 60 kits/master carton  
Master carton volume 0.45 m3  
Gross weight kit 1,25Kg  
G. weight master carton 75Kg

EASY TO USE  
LONG LIFE SPAN
