

Fashion solar powered radio

Listen to your favourite AM/FM radio station anywhere without worrying about your power source.

Built-in rechargeable battery can be recharged by solar light thank to the efficient solar photovoltaic panel built-in in the unit.

Ideal for the cottage, camping and outdoor activities, or for emergency power outages as well as where it is difficult to get ac power sources.

SUPER EFFICIENT FAST CHARGING: 1 hour only under the sun will provide to you 50-70 minutes of radio !

Has LED power and tuning indicator.
Includes nylon hand strap and earphone.
SUPER LIGHT WEIGHT AND EASY TO CARRY

Stylish design, high quality material and good sound.

Technical Parameters

Sensitive degree of the FM (Frequency modulation)	Better than 20 uV
Sensitive degree of the AM	Better than 5Mv/m
Receive scope of the FM (Frequency modulation)	88-108 MHz
Receive scope of the AM	530 ~ 1600 KHz
The audio frequency output power	Max. 15 mW
The time for charging inner battery fully by solar energy	11 ~ 13 hours
Radio work time after charging 1 hour by solar energy	40 ~ 70 minutes
Radio work time after being charged fully	More than 8 hours
Product life time	+ 5 years
Product size	90x55x22mm
Weight	65 Gms
Built-in battery	120mAh, 1.2V
Packing Details	blister pack/pc – 40pcs export master carton
Master Carton Specifications	Meas: 49*30*29cm
Gross Weight: 7kg	Certificate: CE and ROHS

REF. ATL5000
