

Camera CCTV

Solar camera for Instalite solar lamps

IP Camera Specification:

Working Voltage: DC-12V

Working Current/Power: Daytime \approx 150MA (1.8W) / Night \approx 250MA (3W)

Pixels: magnesium light 0130 CMOS 1300000 pixels

Resolution: 1920*1080

Lens/Angle: 6MM / \approx 50 degree

Support Memory Card: Max 128G (Standard Configuration 32G)

Memory Card Storage (one day 24hrs): 15 Days Video

Work Temperature/humidity: Tem: -25°~55° / Hum:10-90%

Wifi Distance: \approx 25M (Open area)

Own wireless AP hot spots WIFI function (local): Support (Can be connected by Phone/PC)

AP Hotspot/WIFI/Wlan: Supported. Only support one connect way

Motion detection distance: \approx 15M

Infrared night vision: Supported

Real-time monitoring, remote / local: Supported

SD card storage image playback, remote / local area: Supported
